\* Dekalb, Illinois – February 14, 2008: 27-year-old Steven Kazmierczak shot and killed five people and wounded 16 others before killing himself in a Northern Illinois University auditorium. According to his girlfriend, he had recently been taking Prozac, Xanax and Ambien. Toxicology results showed that he still had trace amount of Xanax in his system.

\* Omaha, Nebraska – December 5, 2007: 19-year-old Robert Hawkins killed eight people and wounded five before committing suicide in an Omaha mall. Hawkins' friend told CNN that the gunman was on antidepressants, and autopsy results confirmed he was under the influence of the "anti-anxiety" drug Valium.

\* Jokela, Finland – November 7, 2007: 18-year-old Finnish gunman Pekka-Eric Auvinen had been taking antidepressants before he killed eight people and wounded a dozen more at Jokela High School in southern Finland, then committed suicide.

\* Cleveland, Ohio – October 10, 2007: 14-year-old Asa Coon stormed through his school with a gun in each hand, shooting and wounding four before taking his own life. Court records show Coon had been placed on the antidepressant Trazodone.

\* Blacksburg, Virginia – April 16, 2007: The psychiatric drug history of Seung-Hui Cho in the Virginia Tech Massacre was never made public. Initial reports stated that "depression medication" was found among Cho's belongings. But neither his toxicology reports, nor his recent medical history were ever released to find out whether Cho had been in withdrawal from psychiatric medication. (33 were killed and 29 injured, but this was not included in the total of dead and wounded cited above.)

\* Red Lake, Minnesota – March 2005: 16-year-old Jeff Weise, on Prozac, shot and killed his grandparents, then went to his school on the Red Lake Indian Reservation where he shot dead 7 students and a teacher, and wounded 7 before killing himself.

\* Greenbush, New York – February 2004: 16-year-old Jon Romano strolled into his high school in east Greenbush and opened fire with a shotgun. Special education teacher Michael Bennett was hit in the leg. Romano had been taking "medication for depression".

- \* El Cajon, California – March 22, 2001: 18-year-old Jason Hoffman, on the antidepressants Celexa and Effexor, opened fire on his classmates, wounding three students and two teachers at Granite Hills High School.
